

Welcome to Pleasley Surgery.

Statement of Purpose

At Pleasley Surgery we aim to treat all of our patients promptly, courteously and in complete confidence. We aim to deliver a "Best Practice" standard of care by providing suitable patient consultations to establish an appropriate diagnosis, treatment and care plans - a service which is further enhanced by patient participation, continuous improvement and staff involvement. We offer a family friendly service. In order to achieve this, the following objectives have been set:

- To provide the best possible quality service for all our patients within a confidential and safe environment by working together
- To show our patients courtesy and respect at all times irrespective of ethnic origin, religious belief, personal attributes or the nature of the health problem.
- To involve our patients in decisions regarding their treatment.
- To promote good health and well-being to our patients through education and information.
- To involve allied healthcare professionals in the care of our patients where it is in their best interests.
- To encourage our patients to get involved in the practice through an annual survey and encouragement to comment on the care they receive.
- To ensure that all members of the team have the right skills and training to carry out their duties competently.

Pleasley Surgery is a well-established, respected surgery and has been for over 50 years. It is situated in a semi-rural village of Pleasley Mansfield. All on one level the building makes disabled/wheelchair access easily available. The surgery is also conveniently situated close to public transport. We are constantly looking at ways to improve and offer new services.

Our PMS (Primary Medical Services) practice serves just over 3,000 patients.

At the moment we are a single handed GP Practice but are looking for a salaried GP with a view for a partnership.

The Practice also employs 2 Practice Nurses, health care assistant and a team of Receptionists, and is also supported by Care Trust staff, including a Midwife, Health Visitors, a Pharmacist and District Nurses.

The Practice offers a wide range of Enhanced Services including minor surgery, minor injuries and extended hours on a Tuesday evening.

Our regulated activities are Diagnostic and screening procedure, maternity and midwifery services, surgical procedures and treatment of disease, disorder or injury.
